Subject: Re: Clarification of Letter to Senator Blunt's office on TCE levels

Thanks Jim. I appreciate you looking into this matter. Can you forward a copy of the email to me for my files. Thanks

Dale,

The following short statement was sent via email today to Senator Blunt's office:

In EPA's letter to Senator Blunt dated April 3, 2018, EPA stated that "the source of TCE in air at Fantastic Caverns was determined to be the former Litton Systems site." The EPA wants to clarify that EPA has not determined the source of the environmental release of TCE migrating into Fantastic Caverns as the Missouri Department of Natural Resources is the lead agency overseeing the environmental evaluation of, and response to, this contamination.

Jim
